

NextGen Healthcare Announces Spring 2020 Release

March 10, 2020

Redesigned NextGen® Enterprise Strengthens Integrated Care Content and Workflow While Advancing the Physician and Patient User Experience

IRVINE, Calif.--(BUSINESS WIRE)-- [NextGen Healthcare, Inc.](#) (Nasdaq: NXGN), a leading provider of ambulatory-focused technology solutions, today announced the availability of its Spring 2020 release of NextGen® Enterprise, its award-winning solution for mid-size to large practices. New capabilities enable an optimized user experience and greater control of business and office workflows — benefitting both practices and their patients. 2020 enhancements include:

- **Enhancing Cross-Platform Access:** The improved Subjective, Objective, Assessment, Plan (SOAP) template and Computerized Physician Order Entry (CPOE) workflow naturally pairs with NextGen® Mobile to offer physicians a continued enhanced user experience and the ability to leverage native Mobile workflows to safely provide care with greater flexibility.
- **Accelerated Delivery of Specialty Content:** NextGen Healthcare Adaptive Content Engine enables rich personalized content across all specialties to support the growing demands of integrated healthcare requirements.

In addition, the 2020 release includes updates to NextGen® Behavioral Health Suite, NextGen® Therapy Suite, NextGen® Orthopedic Suite, NextGen® Ophthalmology Suite and NextGen® Optical Management.

“In today’s rapidly evolving healthcare environment, practices need the most current and advanced capabilities available to be successful,” shared John S. Beck, Chief Solutions Officer and Executive Vice President for NextGen Healthcare. “Our newest release incorporates valuable client feedback to deliver increased usability, strengthened specialty content and seamless integrated workflows that support next generation integrated care models.”

Brandon Brosi, Senior IT Specialist from beta-tester Preferred Family Healthcare shared, “the updates to the group appointments feature has been a game-changer for our clinicians. This new workflow is a valuable time saver as it eliminates the manual process of scheduling and checking-in patients individually, as well as minimizes the documentation trail required.”

NextGen Healthcare’s Best in KLAS ranking for Practice Management Solution (11-75 Physicians) symbolizes the confidence and trust that clients place in NextGen Practice Management.
