

QUALITY SYSTEMS INC.

JP Morgan Healthcare Conference
January 14, 2009

SAFE HARBOR PROVISIONS FOR FORWARD-LOOKING STATEMENTS:

Statements made during this presentation, the proxy statements filed with the Securities and Exchange Commission (“Commission”), communications to shareholders, press releases and oral statements made by our representatives that are not historical in nature, or that state our or management’s intentions, hopes, beliefs, expectations or predictions of the future, may constitute “forward-looking statements” within the meaning of Section 21E of the Securities and Exchange Act of 1934, as amended. Forward-looking statements can often be identified by the use of forward-looking terminology, such as “could,” “should,” “will,” “will be,” “will lead,” “will assist,” “intended,” “continue,” “believe,” “may,” “expect,” “hope,” “anticipate,” “goal,” “forecast,” “plan,” or “estimate” or variations thereof or similar expressions. Forward-looking statements are not guarantees of future performance.

Forward-looking statements involve risks, uncertainties and assumptions. It is important to note that any such performance and actual results, financial condition or business, could differ materially from those expressed in such forward-looking statements. Factors that could cause or contribute to such differences include, but are not limited to, the risk factors discussed under “Risk Factors” in our Annual Report on Form 10-K for fiscal year ended March 31, 2008, as well as factors discussed elsewhere in other reports and documents we file with the Commission. Other unforeseen factors not identified herein could also have such an effect. We undertake no obligation to update or revise forward-looking statements to reflect changed assumptions, the occurrence of unanticipated events or changes in future operating results, financial condition or business over time unless required by law. Interested persons are urged to review the risks described under “Risk Factors” and in “Management’s Discussion and Analysis of Financial Condition and Results of Operations” in our Annual Report on Form 10-K for fiscal year ended March 31, 2008, as well as in our other public disclosures and filings with the Commission.

Quality Systems: Company Snapshot

- ⦿ Through our NextGen and QSI divisions, we develop and provide computer-based practice management, medical records, and e-business applications for U.S. medical and dental group practices
- ⦿ The company derives most of its revenue and growth from physician group business and its high functionality practice management suites
- ⦿ Quality Systems is managed with an eye toward pursuing organic growth, while concurrently maintaining a strategy of aggressive reinvestment in new product and service development initiatives
- ⦿ Quality Systems has an industry-leading track record of strong financial and shareholder returns, and a dedication to the highest corporate governance standards

A Track Record of Success

- ◎ The growth strategy developed by the Quality Systems management team has delivered results:
 - We believe the company has been growing at a faster rate than the industry average and taking market share from our competitors
 - Our revenue stream is diversified, with two-thirds of sales to mid-sized and large customers and the rest to smaller customers
 - The company has successfully leveraged its strength in the practice management business into the emerging medical record market
 - Currently 75% of our customers buy products in both categories
 - By investing in new products and services, we can anticipate customers' unique needs and provide the solutions they demand

A Track Record of Success

- The results are evident in our ongoing financial performance and track record of delivering shareholder value:
 - A nearly 400% stock price increase the past five years
 - Financial results that rank Quality Systems among the most profitable companies and strongest cash flow generators in its sector during the same period
 - Solid first-quarter FY'09 earnings that included a 31% jump in net revenues and 40% increase in net income
 - A corporate governance record predicated on pro-shareholder policies

Industry Growth Drivers
