Quality Systems, Inc. to Present at the 33rd Annual J.P. Morgan Healthcare Conference

IRVINE, Calif.--(BUSINESS WIRE)-- [Quality Systems, Inc.](#) (NASDAQ: QSII) announced today that its management plans to present its corporate story at the upcoming 33rd Annual J.P. Morgan Healthcare Conference.

The conference, which will showcase more than 450 publicly traded and privately held healthcare companies for institutional investors, is scheduled for Monday, January 12th, 2015 - Thursday, January 15th, 2015 at the Westin St. Francis Hotel in San Francisco.

Quality Systems management is scheduled to present on Monday, January 12th, 2015, at 8:00 AM local time. The presentation will address the company's operations and strategy. Each participating company is scheduled for a 25-minute presentation, followed by a 25-minute question and answer session.

A web cast of Quality Systems' audio presentation will be available on January 12th, 2015 (beginning at the start time of the presentation) and can be viewed by accessing <http://jpmorgan.metameetings.com/confbook/healthcare15/directlink?p=16681>. It will be archived for 90 days.

JPMorgan Chase & Co. is a leading global financial services firm with assets of \$2.5 trillion and operations worldwide.

SAFE HARBOR PROVISIONS FOR FORWARD-LOOKING STATEMENTS

This news release may contain forward-looking statements within the meaning of the federal securities laws, including but not limited to, statements regarding future events, developments, the Company's future performance, as well as management's expectations, beliefs, intentions, plans, estimates or projections relating to the future (including, without limitation, statements concerning revenue, net income and earnings per share). Risks and uncertainties exist that may cause the results to differ materially from those set forth in these forward-looking statements. Factors that could cause the anticipated results to differ from those described in the forward-looking statements are set forth in Part I, Item A of our most recent Annual Report on Form 10-K for the fiscal year ended March 31, 2013, including but not limited to: the volume and timing of systems sales and installations; length of sales cycles and the installation process; the possibility that products will not achieve or sustain market acceptance; seasonal patterns of sales and customer buying behavior; impact of incentive payments under The American Recovery and Reinvestment Act on sales and the ability of the Company to meet continued certification requirements; the development by competitors of new or superior technologies; the timing, cost and success or failure of new product and service introductions, development and product upgrade releases; undetected errors or bugs in software; product liability; changing economic, political or regulatory influences in the health-care industry; changes in product-pricing policies; availability of third-party products and components; competitive pressures including product offerings, pricing and promotional activities; the Company's ability or inability to attract and retain qualified personnel; possible regulation of the Company's software by the U.S. Food and Drug Administration; changes of accounting estimates and assumptions used to prepare the prior periods' financial statements; and general economic conditions. A significant portion of the Company's quarterly sales of software product licenses and computer hardware is concluded in the last month of a fiscal quarter, generally with a concentration of such revenues earned in the final ten business days of that month. Due to these and other factors, the Company's revenues and operating results are very difficult to forecast. A major portion of the Company's costs and expenses, such as personnel and facilities, are of a fixed nature and, accordingly, a shortfall or decline in quarterly and/or annual revenues typically results in lower profitability or losses. As a result, comparison of the Company's period-to-period financial performance is not necessarily meaningful and should not be relied upon as an indicator of future performance. The Company undertakes no obligation to publicly update any forward-looking statements, whether as a result of new information, future events or otherwise.
