

NextGen Healthcare Solutions Earn Top Rankings in 2022 KLAS Report

February 8, 2022

NextGen Enterprise Practice Management Captures First Place for the Fourth Consecutive Year; Cloud-based NextGen Office Takes #1 Spot in Small Practice Category for First Time

ATLANTA--(BUSINESS WIRE)--Feb. 8, 2022-- NextGen Healthcare, Inc. (Nasdaq: NXGN), a leading provider of ambulatory-focused technology solutions, today announced that [NextGen@ Enterprise](#) PM is the top-ranked practice management solution (11-75 physicians) for the fourth consecutive year, according to the [2022 Best in KLAS: Software & Services Report](#). [NextGen@ Office](#), the company's cloud-based small practice electronic health record (EHR) and practice management (PM) solution, earned the No. 1 honor in the [Small Practice PM/EMR segment](#) (10 or fewer physicians) for the first time, up from 2nd place last year.

"Each year, thousands of healthcare professionals across the globe take the time to share their voice with KLAS. They know that sharing their perspective helps vendors to improve and helps their peers make better decisions. These conversations are a constant reminder to me of how necessary accurate, honest, and impartial reporting is in the healthcare industry," said Adam Gale, KLAS CEO. "The Best in KLAS report and the awards it contains set the standard of excellence for software and services firms."

"The trust and confidence of our clients is the highest honor we could receive. Every day, our team works hard to ensure our solutions improve the experience for patients and providers, resulting in better healthcare outcomes for all," said David Sides, president and chief executive officer at NextGen Healthcare. "For four consecutive years, our NextGen Enterprise clients have validated our efforts, telling us

NextGen Healthcare is the Best in KLAS Practice Management solution for the fourth year in a row. (Graphic: Business Wire)

that we are delivering true impact, not only for patients, but for their practices. This 2022 Best in KLAS achievement amplifies those voices and inspires us to continue innovating," Sides said. "We are especially proud of earning the top ranking in the small practice category for the first time ever, which demonstrates our ability to meet the needs of independent practitioners."

Determined by independent, comprehensive surveys of sophisticated practices across the U.S. including interviews and data compiled from websites and industry reports, the Best in KLAS designation is awarded to the solution that provides the utmost operational and clinical impact on healthcare providers. "The Best in KLAS award serves as a signal to provider and payer organizations that they should expect excellence from the winning vendors," KLAS CEO Gale added.

NextGen Office user Dr. Glenn Orsak of Friendswood Family Medicine in Friendswood, Texas, is a small practice client. "NextGen Healthcare offered the only solution that met my needs. Gone are the fax machine, prescription refill paper messages, phone insurance verification, calling patients with lab results, and decreased productivity. NextGen Healthcare literally is a next-generation EHR," he said.

[NextGen@ Enterprise PM](#) is a practice management solution that reduces time-consuming tasks and facilitates data sharing. It helps users catch claim errors and denials early and fix them quickly, while supporting unique billing requirements. Patient satisfaction improves with streamlined patient scheduling and registration processes. And practices can make better decisions using on-target business intelligence. NextGen Enterprise PM also unifies workflow across the revenue cycle so practices can run more profitably.

[NextGen@ Office](#), designed for small, independent practices, helps streamline workflows, improve clinical outcomes, and refine reporting while enhancing patient satisfaction for both the clinician and patient. This fully integrated, cloud-based clinical and billing solution empowers patients to request appointments electronically, request refills, and schedule telehealth visits; and connects the care team through direct messaging and referral exchange.
