

NextGen® Behavioral Health Suite Adopted by Compass Health Network to Deliver Whole-Person Care

February 28, 2023

Large Community Behavioral Health Clinic Drives to Improve Outcomes with Comprehensive View of Patient Health

REMOTE-FIRST COMPANY/CLINTON, Mo.--(BUSINESS WIRE)--Feb. 28, 2023-- NextGen Healthcare, Inc. (Nasdaq: NXGN), a leading provider of innovative, cloud-based healthcare technology solutions, today announced that [Compass Health Network](#), a Certified Community Behavioral Health Clinic (CCBHC) and Federally Qualified Health Center (FQHC), has chosen [NextGen® Behavioral Health Suite](#) in pursuit of its mission to provide whole-person care. The nonprofit healthcare organization offers a full continuum of services, including primary care, behavioral health and oral health to more than 100,000 patients across 84 locations in Missouri.

Compass Health Network adopted the NextGen Behavioral Health Suite to complete its integrated platform and provide a complete view of patient health for its staff of more than 3,000. The organization expanded its partnership with NextGen Healthcare because it is the only electronic health record (EHR) vendor to offer behavioral health, primary care, oral health, and human services in one integrated software solution.

"Compass Health Network is taking a more complete approach to delivering whole-person health with our fully integrated solution," said Srinivas (Sri) Velamoor, chief growth & strategy officer and executive vice president at NextGen Healthcare. "It is critical for providers to work on a platform that provides both a comprehensive clinical record and actionable insight at the point of care – benefitting both patients and providers."

The importance of integrated care is at the forefront for practices. According to a 2021 OPEN MINDS survey commissioned by NextGen Healthcare, 51 percent of behavioral health providers have fully implemented whole-person care, while another 29 percent have started the integration process. For Compass Health Network, this translates to a "person-centered" mission in which families in the communities it serves can rely on one trusted source for everything from mental health services to pediatric dental checkups and routine visits.

"The addition of the NextGen Behavioral Health Suite is enabling Compass Health Network to deliver the continuity of care that enables better healthcare outcomes in its communities," Velamoor concluded.
