

2016 BAIRD HEALTHCARE CONFERENCE

Jamie Arnold, CFO

September 7, 2016

Safe Harbor Provisions for Forward-Looking Statements

This presentation and the accompanying oral statements may contain forward-looking statements within the meaning of the federal securities laws. Statements regarding future events, developments, the Company's future performance, as well as management's expectations, beliefs, intentions, plans, estimates or projections relating to the future (including, without limitation, statements concerning revenue and net income), are forward-looking statements within the meaning of these laws and involve a number of risks and uncertainties. Management believes that these forward looking statements are reasonable and are based on reasonable assumptions and forecasts, however, undue reliance should not be placed on such statements that speak only as of the date hereof. Moreover, these forward-looking statements are subject to a number of risks and uncertainties, some of which are outlined below. As a result, actual results may vary materially from those anticipated by the forward-looking statements. Among the important factors that could cause actual results to differ materially from those indicated by such forward-looking statements are: the volume and timing of systems sales and installations; length of sales cycles and the installation process; the possibility that products will not achieve or sustain market acceptance; seasonal patterns of sales and customer buying behavior; impact of incentive payments under The American Recovery and Reinvestment Act on sales and the ability of the Company to meet continued certification requirements; the development by competitors of new or superior technologies; the timing, cost and success or failure of new product and service introductions, development and product upgrade releases; undetected errors or bugs in software; product liability; changing economic, political or regulatory influences in the health-care industry; the effectiveness of M&A strategies and integration efforts; changes in product-pricing policies; availability of third-party products and components; competitive pressures including product offerings, pricing and promotional activities; the Company's ability or inability to attract and retain qualified personnel; disruptions caused by corporate restructuring plans and business strategy shifts; possible regulation of the Company's software by the U.S. Food and Drug Administration; uncertainties concerning threatened, pending and new litigation against the Company including related professional services fees; uncertainties concerning the amount and timing of professional fees incurred by the Company generally; changes of accounting estimates and assumptions used to prepare the prior periods' financial statements; general economic conditions; and the risk factors detailed from time to time in the Company's periodic reports and registration statements filed with the Securities and Exchange Commission.

Investment Highlights

- 1 New management positioning streamlined company for growth
- 2 Highly profitable, strong recurring revenue base
- 3 Large footprint with existing customers, massive cross-selling opportunity
- 4 Clear strategy to the cloud
- 5 Well positioned to capitalize on emerging fee-for-value / population health market
- 6 Significant cash flow with dry powder for both organic and inorganic growth
